IRA46

No Door

IRA46ASBSB

No Door, Adjustable Swivel

Top of the line, Model A-46 is professional designed to include the most premium set of features, allowing for the utmost ease and comfort when ironing. The telescoping steel support legs provide the rugged stability necessary when ironing with the superlative 46 inch length board. A 4 inch height adjustment lets you choose the most comfortable work position. A solid state, silent timer turns on power to the built in work light and the electrical outlet. The electrical cord cover and restraints help guide the cord over the board, eliminating potential snags. You can leave your iron plugged in at all times, even when the door is closed. A built in safety switch disconnects all power when the board is returned to the upright position.

It has an oversized hot iron storage compartment, iron rest, storage shelves, garment bar and indicator light are the standard accessories completing this supreme ironing center.

IRA42

No Door

IRA42D

With Birch Door

Model A-42 is skillfully designed with a 90 degree left/right, industry standard 42 inch, ventilated steel swivel board, giving flexibility in confined areas like corners in the laundry room or kitchen. Its easy 4 inch height adjustment automatically returns to its normal ironing board position every time the board is put away.

The solid state silent timer, premium sized hot iron storage component, built in work light, storage shelves, electrical cord wrap, and on/off indicator light are the outstanding standard accessories that complete this ultimate ironing center.

Rev-A-Shelf

Pull-Out Ironing Board

Rev-A-Shelf has ironed out the inconvenience of storing and setting up that bulky ironing board with the introduction of its CIB/ VIB Series. the uniquely designed expandable frames mount easily in a closet between panels or in a vanity drawer between cabinet sides from 14 1/4" to 21" wide and the fixed brackets allow for easy mounting of all standard drawer fronts. They feature chrome finishes and unique ball-bearing slide systems that provide sufficient over travel for maximum utilization. Simply open until the gravity lock engages, unfold board and you are ready to iron!
