

Wood Putty

Maverick Hardware

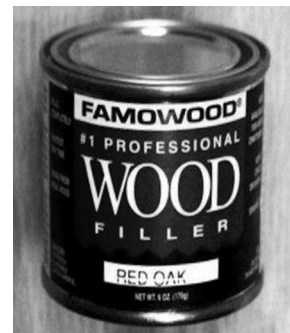

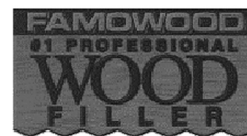

Wood Putty

Wood Filler

Wood in plastic base applies like putty. Formulated of such body and consistency as to work easily and fast and it dries quickly. No noticeable shrinkage. Sands easily to the desired finish. Doesn't gum up sanders or cutting tools. Takes spirit dye stains freely. Waterproof and weatherproof when properly applied. Ready to use right out of the can. Sticks to any clean surface, outstanding adhesive properties. Cuts down spoilage and waste. Makes wood products usable that might otherwise have to be cut out or

discarded. Cuts productions cost, sets fast and stays fast. Can be painted, varnished, lacquered, stained and oiled.

Water Bases Famowood

All purpose, acrylic-based wood filler that applies like putty. Specialized additives are incorporated to allow smooth applications. Fills small holes or cracks quickly. A thin film will dry in minutes and sands easily. Apply with any flexible putty knife right out of the can. Clean with water prior to drying.

If it has dried, chlorinated solvent or steam is advised.

Solvent Base Wood Filler

Made with a wood flour base, this fine quality putty can be used for repairing cracks, knotholes and other defects in wood. Our Wood Filler sands and accepts stains or finishes exactly like natural woods and can be drilled, sawed, planed or nailed. If drying out should occur, solvent is available to restore the wood filler to its original consistency.

SeamFil

Laminate Filler

For the finishing touch, use SeamFil to match any laminate pattern, color or woodgrain. The basic colors will directly match many plastic laminate colors. In some cases, mixing is necessary. Colors are easy to mix. Won't crack or fade. Special blending process gives the same resistance as the laminate to moisture, detergent, soap and temperature changes. Covers up joints and seams and adds beauty to your craftsmanship. 1oz tubes. Custom color available.
